Application No. 10/565,538

Reply to Official Communication of May 10, 2006

REMARKS/ARGUMENTS

Responsive to the Official Communication dated May 10, 2006, Applicants

respectfully submit the Office has erred in stating that "Applicants must provide both a paper

copy of the Sequence Listing and an initial computer readable form (CRF) of the Sequence

Listing." Applicants U.S. Representative has examined the specification and claims of the

application and has concluded that the application does not contain an unbranched nucleotide

sequence with ten or more bases or an unbranched, non-D amino acid sequence with four or

more specifically defined amino acids, as described in MPEP 2421.02, and therefore does not

require submission of a Sequence Listing or CRF.

Accordingly, Applicants respectfully submit that the Office has erred in requiring a

Sequence Listing and CRF, and that Applicants are therefore not required to provide either a

Sequence Listing or CRF.

Applicants submit that this paper is fully responsive to the Official Communication of

May 10, 2006, and that the application is now in condition for examination on the merits.

Early notification to this effect is earnestly solicited.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,

MAIER & NEUSTADT, P.C.
